DG LINC / DIRECTORATE D

Overtime & Travel time

QUICK GUIDE | Self-contained HTML form | v1.5_A13

1 Complete or edit your shared profile

Complete name, personnel number, unit, grade and place of employment to reveal Missions and EHW. Signature optional.
A remembered complete profile opens collapsed. Use **Edit profile** to reopen it; clicking Missions/EHW folds it again. Data is kept.
The GitHub icon above the version means the startup update check succeeded.

2 Add your missions (if applicable)

Travel appears after saving a mission. In **Missions**, enter the mission number, title and destination (choose **Session STR** to prefill Strasbourg), then click **Save** (**Update** when editing). For work outside a mission, select **Regular work** or **Session STR** directly in **Extra hours worked**.

3 Enter extra hours worked (EHW)

Select activity, place, date, Start, End and justification. Dates may span months. **Session STR: Monday-Thursday only.** Check **Ends the next day** when needed. Select Long Friday, public holidays and closing days manually.
For lunch work, check **Worked during lunch** and set **From / To** within your shift and lunch break.
Fixed **HH:MM** fields accept all minutes; the picker offers quarter-hours. Calculations round **starts down / ends up** to the nearest quarter-hour, including lunch, **before coefficients**. Actual inputs are kept. Example: **08:12-17:46 counts as 08:00-18:00**. Credit is not rounded again.
Click **Save / Update** when enabled. **Saved entries** lists saved work; use Include, Edit or Remove. PDFs group EHW by month, with **21 lines per page** and automatic continuation pages.

Automatic EHW calculation
Standard Mon-Thu / Long Friday: **08:30-17:45**, lunch **12:45-13:30**. Standard Friday ends at **13:30**.
Session STR Mon-Thu: 08:30-12:45 and 14:30-18:45; lunch **12:45-14:30**. Normal hours and unworked lunch are excluded.
Type 1 x1: 07:00-22:00; **Type 2 x1.5:** 22:00-07:00 on working days, Saturdays and closing days. **Type 3 x2:** Sundays and public holidays.

4 Complete travel time compensation

Complete zero, one or several missions. Enter each mission’s Outbound / Return places, dates and times in the same time zone. The same quarter-hour rounding applies. Click **Save** to add it to the recap and PDF, one page per mission. Use **Edit / Update** to confirm changes, **Cancel** to discard them, or **Remove** to exclude a declaration. Review the calculated day categories and periods. **Standard = no credit**; Long Friday PM = **03:30**; weekend / holiday / closing day = **04:15 per half-day**, or **08:30 for both**. AM / PM boundary: **12:00**.

5 Save your work and generate the PDF

The summary appears after saving EHW or Travel. Check **Declaration date** here before export.
PDF content selects available declarations automatically: **Extra hours only**, **Travel time only** or **ALL**, with the page count. You may change it. Monthly EHW pages come first, then one page per travel declaration.
Resolve any listed issues, then click **Generate PDF**. Approval fields remain fillable. Use **Save filled HTML** to retain all declarations and resume later; browser profile storage does not back them up.
Forget saved data opens a confirmation: it clears the browser profile, date, preferences and signature, while keeping current declarations.
